#### INSTRUMENTS

- Allegany Instrument Co.,  
Div. Textron Electronics, Inc.
- Elin Division of I. E. R. C.
- Epsco, Inc.
- Instrumetrics Division  
Mid-Eastern Electronics, Inc.
- Nanosecond Systems, Inc.
- Power Systems Division  
Mid-Eastern Electronics, Inc.
- RD Instruments Division  
Hickok Electrical Instrument Co.
- Remanco, Inc.

Transducer signal conditioning amplifiers, power supplies and bridge calibrators. Null detectors, Igniter testers

Precision AC power sources, Stable Oscillators, AC line voltage correctors, power amplifiers

Digital Voltmeters, precision voltage reference sources, A to D Converters, potentiometric differential amplifiers

High resistance measuring instruments to  $7.5 \times 10^{16} \Omega$ , Certified standards to 10 million megohms traceable to National Bureau of Standards, Meter Calibrators

Pulse Train Generators, High Speed Modular Pulse Counting Systems, High Voltage Dividers, Photomultiplier tube socket assemblies

Transistorized and Mag-amp power supplies up to 13 KW; 275 standard models - rack, bench, plug-in

Oscilloscopes and plug-ins interchangeable with other manufacturer's, including MIL and QPL, Transistor and Tube Testers, VTVM's, Square Wave and Time-Mark Generators; all available in both industrial or militarized form

Servo analyzers with analog converters, simulation, calibration and dynamic-test equipment for radar and micro-wave telemetry and other systems

#### SYSTEMS EQUIPMENT & COMPONENTS

- Electro-Seal Corp.
- Epsco, Inc.
- Lear-Siegler, Inc.  
Electronic Instrumentation Div.  
(Formerly Hallamore)
- Mid-Eastern Electronics, Inc.
- Neshaminy Electronic Corp.
- Remanco, Inc.
- Sensing Devices, Inc.
- Special Products Division  
Mid-Eastern Electronics, Inc.

Interval timers, SCR gaters, stepping switch drivers, proportional voltage controllers, Standby AC power systems and regulators

Solid state analog and digital instrumentation and formatting systems, wideband DC amplifiers, printed circuit logic, D-A converters, space-borne converters, encoders and PDM, PAM and PCM systems

For Telemetry: constant bandwidth and phase lock discriminators, voltage controlled oscillators, summing amplifiers, filters

Silicon Transistorized Modular power supplies

Constant voltage transformers, custom instrument transformers, line regulated power supplies, voltage to frequency converters

Solid state frequency multipliers, IF amplifiers, voice communication networks

Keyboard inputs for data handling systems.  
Alpha and numeric.

7  
Solid State dual optimum diversity combiners for diversity reception in communication systems
